

## Rules for ACM Recruitment Process:-

### **\*Eligibility Criteria\***

1. A student must be registered through Google form. The form is attached in your official college mail id.
2. You have to like, follow our Facebook page and send us a snapshot of that through mail.

**\*Those that'll not do the above task will not be considered as an eligible candidate\***

### **\*Rules\***

1. A student can select multiple modules. There are no restrictions.
2. You can send multiple entries for a particular module. For example you choose Photoshop module and you post one poster but you want to submit another poster, you can.
3. **The last date for the submission of Google form is: 15 September 10, 2017, 11:59 P.M.**
4. **The last date of submission of modules is 17 September 2017, 11.59P.M. No modules will be accepted after the given deadline.**

All the modules are listed below:-

## TECHNICAL MODULES

### **1. Photoshop/Image editing Software**

- (i) You have to design a poster that has to be from the topics given in the attached list.
- (ii) All the **photoshopped/edited posters or images have to be submitted to the mentioned emailid** and you must mention your name, branch, section.

**\*Judgment\*: It'll be done on the basis of your creativity and ability to use the software.**

### **2. App design/Web design**

- (i) You have to design an app/web page of your choice and **send its apk/web page**(folder including all files) **file through mail**.
- (ii) In subject, mention your name, branch and section.
- (iii) You can use internet but those who'll copy the code from Internet will be disqualified.

**\*Judgment\*: Will be judged on the basis of UI and what all information you're providing on your theme.**

### 3. Video Editing

- (i) Create a compilation in a suitable video format that showcases a documentary or advertises a concept. Choose a relevant topic of your choice.
- (ii) It should be at least 4-5 minutes long and must be original production.

**(\* Video has to be submitted on the scheduled date. \*)**

**\*Judgment\*: It'll be done on the basis of how you used the graphic content and video editing tools.**

### 4. Coding

Coding module will be judged at the time of Technical Interview. No task is to be submitted for it.

## NON-TECHNICAL MODULES

### 5. Content Writing

- (i) The content must be from the topics given to you. If you want to have another topic, send us an e-mail to confirm it first.
- (ii) The **content must be mailed to the mentioned email id.**
- (iii) The content **HAS TO BE ORIGINAL**. Any duplicity of the content will lead to disqualification.

**(\* Content has to be submitted on the scheduled date. \*)**

**\*Judgment\*: It'll be done on the basis of how you pursue things, your imagination, writing skills.**

### 6. Other

Apart from the entire module mentioned to you, if you feel like you cannot pursue any of them but want to be a part of the chapter, register yourself in the non-technical section and then you will be judged on the other set of modules.
